Att. Post Strategic Review.

My family friends & I are very concern about this secret review that the Government sneaking in without most of the Public, not known about this situation, this should be open to the public to take a vote which would be fair to all parties.

Private-sector competitors would focus on profitable areas and services, leaving unprofitable parts to our public postal service, with fewer profits Canada Post would find it increasingly difficult & eventually impossible to provide uniform and affordable service, especially in rural and remote parts of the Country.

This Government is trying to fix something that isn't broken, so please leave well enough alone.

We are aware the last time this Government was in Office closed 1500 Rural Post Offices before being stopped by public outrage.

Let the voters know about this matter and we can live with the outcome.
