

To: Canada Post Corporation Strategic Review

This is in support of keeping our Canada Post as Canada Post. We do not need it privatized. Our Rural communities need this public service. With this high tech age we are living in, many of our senior citizens are not 'tech savvy' and our post offices are their only way of communicating with the outside world.

Leave our postal system alone; it has served us well over these many years.

**If it isn't broken, don't fix it.**
