

I am opposed to the review because I feel it unnecessary and therefore a waste of money.

The government of Canada has said that Canada Post will not be privatized.

If that's the case then why look at

changing the mandate, or changing the exclusive privilege that pays for the service?

Canadians like their service just the way it is.

The mandate for Canada Post is to provide affordable universal postal service to all Canadians while being financially self sufficient. That's been working very well, so please don't change it.

Canadians want more service not less,

more door to door delivery, more post offices and some that are open longer.

You need to look at improving services,

and improving health and safety for your workers.

The system that is in place is working:

so then " IF IT AIN'T BROKEN, DON'T

FIX IT !"

So please, leave it alone.
