Attention: Strategic Review Committee

Dear Sir/Madam:

I am writing today in regards to the review of Canada Post Corporation. It is my understanding this is the first time in 12 years this Corporation has been under review. I would have to say on the outset reviews are very expensive and monies wasted on this could and should be spent on other issues throughout this country.

I believe post offices should remain publicly owned. I fully support mail delivery be door to door and includes rural delivery. A very real threat in changes for me personally would be the possible reduction of security and privacy of mail.

In closing I would hope the Federal Government would take care of the best **RESOURCES** we all have.....our **HUMAN RESOURCES**. I feel your employees go through difficult times far too often.

Sincerely,

A handwritten signature in black ink, appearing to read 'Abel LeBlanc', with a long horizontal flourish extending to the right.
