Canada Post Corporation Strategic Review
330 Sparks Street (HCCR)
Ottawa, Ontario
K1A 0N5

We understand that the government is conducting a strategic review of the Canada Post Corporation which will include an examination of deregulation.

The consensus of the Ponoka Town Council is that this review and deregulation consideration has potential for being positive with changes that can be beneficial to the postal system. Access to postal services through private business locations was stated as very advantageous in as much as extended hours and days in convenient locations as made available.

Thank you for the opportunity to submit this position comment.

Yours truly,

Brad Watson
Chief Administrative Officer
