CUPW - PRAIRIE REGION

Dear Sir/Madam:

We the Town of Radville are writing to voice our concern and disappointment that Canada Post Corporation is again looking at the possibility of closing some rural post offices. Our residents as well as businesses would be seriously impacted by any loss of our rural post office. Rural Saskatchewan is in the throws of a growth boom. Postal services are one of the important things that potential residents look for in a community.

We trust that you will take our comments into consideration and disband your plans for any type of deregulation within the postal services and more importantly those in rural communities.

Thank you for considering our concerns.

Yours truly

Gail Blaney
Acting Administrator
for Radville Town Council
