Attention: Ms Moira Greene
Chief Executive Officer

Dear Ms Greene:

It is my understanding that your Corporation is doing a review called the Canada Post Corporation Strategic Review to determine if it should continue to have an exclusive privilege to offer universal service.

On behalf of Municipal Council of the Village of Rexton, New Brunswick, I wish to state our opposition to any decisions that would jeopardize the existence of the Post Office in Rexton or other small municipalities. Rural Canada cannot afford any further reduction in services offered by Canada Post especially now with part-time support staff hours drastically reduced. This is a major concern for our Village.

It is our hope that you will take our concerns into consideration when making future decisions.

Regards,

David L. Hanson
Mayor
