To Whom It May Concern

In response to the Canada Post Corporation Strategic Review.

We would like to have it noted that Amisk Post Office should stay under and be maintained by the Federal Government. The Village of Amisk is opposed to deregulation of the public Canada Post Offices. It should be maintained as is at present, and should be saved as an universal, public postal service.

We live in a very small rural area and the Post Office is so very essential to our everyday needs, including mailing letters, bills and general correspondence.

Sincerely,

Kathy Ferguson
Mun.Admin.
